

ROYAL® 

your new *C**ustom* portable... an invitation to excellence.

# CONGRATULATIONS...

*You have purchased the finest Portable Typewriter available today.*

We would like to take this opportunity to thank you for choosing Royal... and to assure you of our continuing interest in your typing enjoyment and satisfaction.

The Royal Instruction Booklet in the pocket of this folder will tell you about Royal's standard features and how to use them.

On the following pages you will find a full description of the Select-A-Type and Line Meter features found exclusively on the Royal Custom Portable.

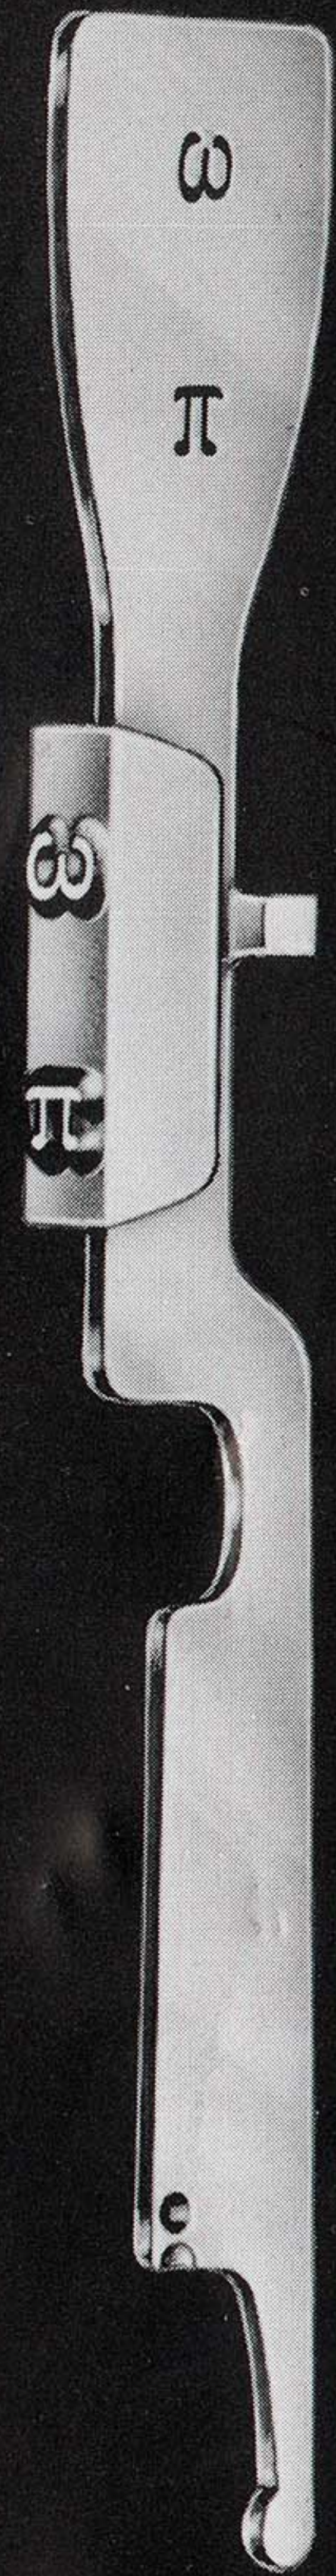

# YOUR ROYAL CUSTOM LINE METER

The Royal Line Meter automatically tells you how many inches you have left when you are typing near the bottom of a standard 11" sheet of paper.

- 1** Before inserting paper, turn either cylinder knob until the "Set 11"" on the Line Meter Scale appears opposite the Line Meter arrow.
- 2** Insert paper and adjust cylinder to desired typing position.

That's all you have to do. As you near the bottom of the page, the numbers on the Line Meter Scale will automatically indicate how many inches of typing space you have left.

# THIS IS SELECT-A-TYPE™

*...Royal's new special character type unit*

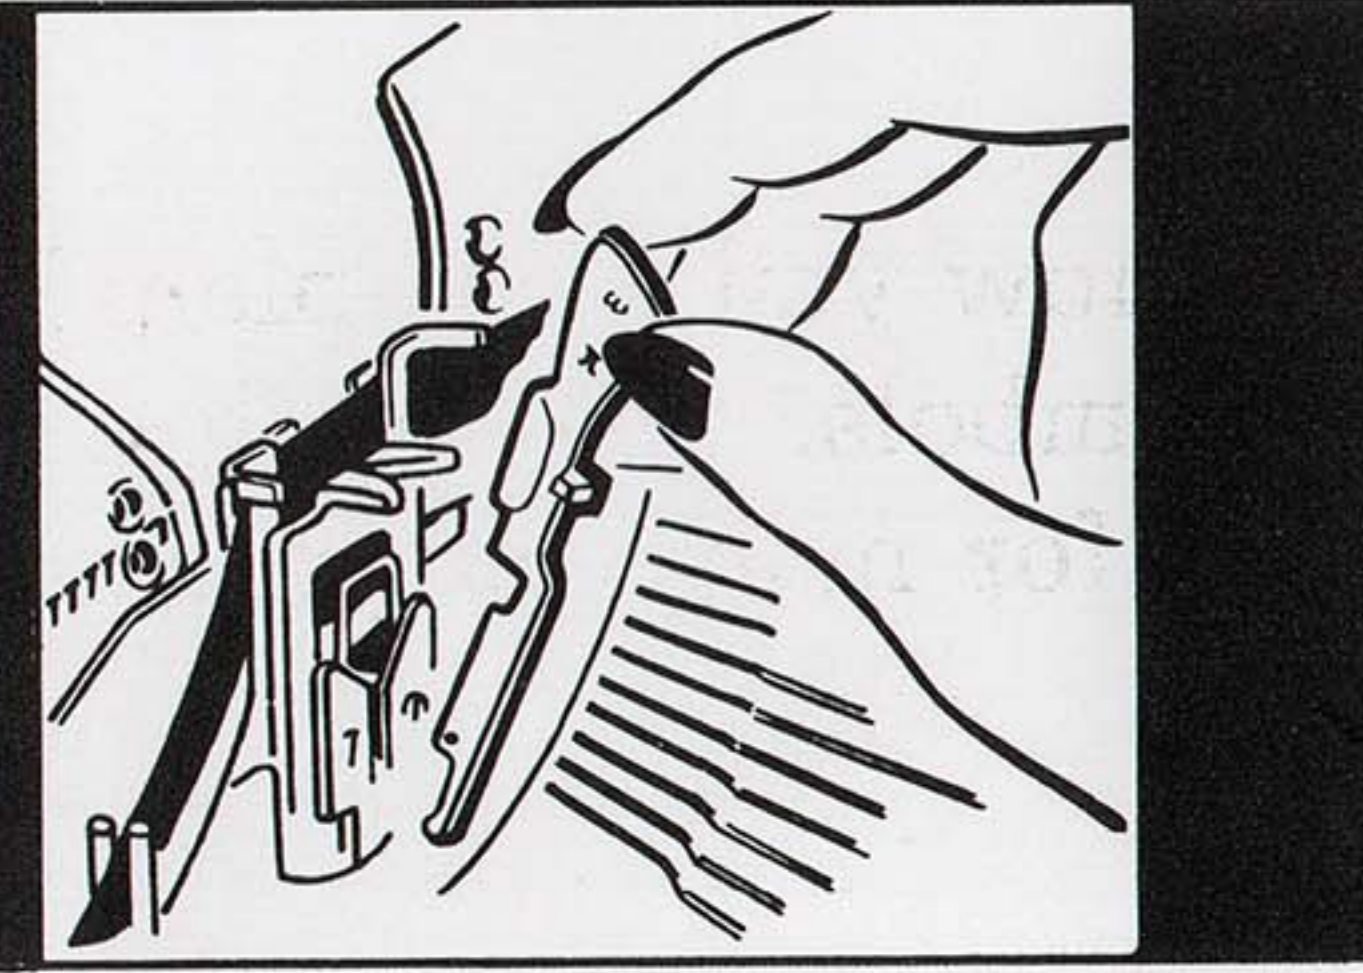

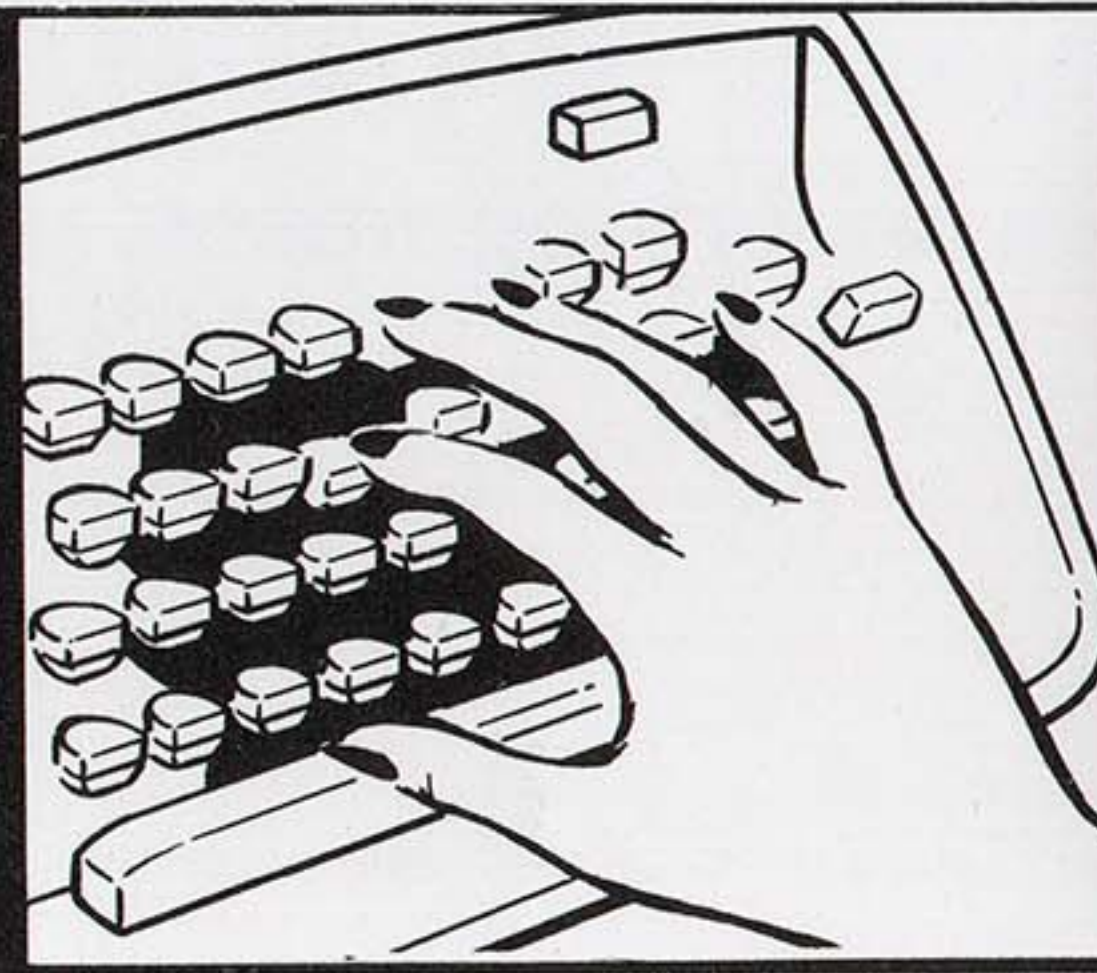

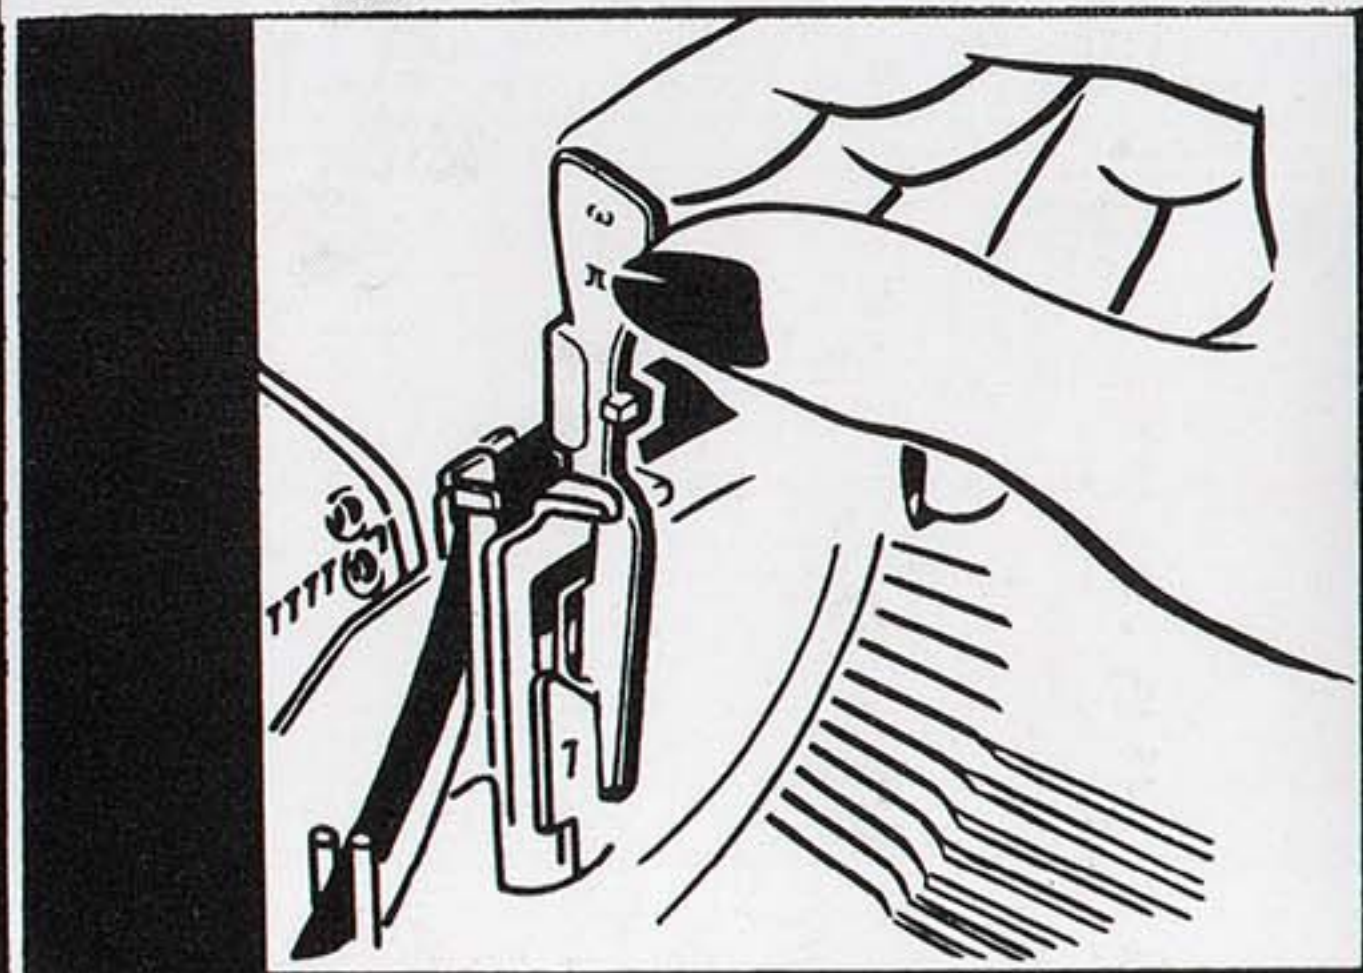

Used in addition to the standard keys, Select-A-Type gives your Royal Portable new scope and capability through a wide selection of special characters and symbols. Designed for use in practically any language or profession, these easy-to-use type units are quickly attached and removed, permitting you to retain the everyday advantage of a standard keyboard.

The special type unit simply snaps into place — you tap a key (preferably one near the center of the keyboard) — and that's it. Then Select-A-Type snaps out as easily as it went in. You're ready to continue typing.

Each standard set of four Select-A-Type units (available in Pica only) gives you a total of eight characters or symbols, sufficient in most cases for basic typing in the subject category selected. For a more complete selection, of course, reference should be made to the full Select-A-Type Catalog.

You can obtain these standard sets through the dealer from whom you purchased your Royal Custom Portable. Each package of four costs \$10.00.

For your immediate use, and to give you a personal demonstration of the amazing benefits offered by the use of Select-A-Type

units, Royal is making you, as a Royal Custom purchaser, this offer:

If you will send the enclosed coupon to Royal Typewriter Company, Inc. in Springfield, Mo. along with the warranty card you received with your new Custom Portable, plus \$2.50 cash or a check in the same amount, Royal will send you one standard set of four Select-A-Type units as a sampler. You have your choice of any of the categories named above. Simply indicate on the coupon the category you desire. Additional sets or individual Select-A-Type units can be obtained from the dealer from whom you purchased your Royal Custom Portable.

The Instruction Booklet in this pocket tells you about Royal's standard features and how to use them. Your new Custom Portable incorporates all of these plus the special features described on the preceding pages.
